Vince, don't sell arms to repressive regimes

Dear Dr Cable,

As Business Secretary you are responsible for the licensing of weapons exports and for the UKTI-DSO, the Government arms sales organisation. As local residents we call upon you to:

- 1. Stop arming repressive regimes. It's time to end government support for the arms trade, close the DSO and close the DSEi arms fair.
- 2. Substantially restrict arms sales to countries where this will divert resources from development and exacerbate poverty.
- 3. Support a strong and effective UN Arms Trade Treaty that protects and upholds human rights and bans weapons sales to repressive regimes.
- 4. Divert current taxpayer support for the arms trade towards sustainable exports which demonstrate a respect for peace, human rights, and a safe environment; and create positive, sustainable jobs in the UK.
